

Apex Centinel List of Contractors

This document lists key third-party contractors and infrastructure partners engaged by Apex Centinel for its Bitcoin mining operations under the Rule 506(c) securities offering.

1. Crypto LLC

Crypto LLC is a U.S.-based infrastructure and mining management firm providing custom Bitcoin miner configuration, remote dashboard support, and scalable facility deployment services.

Website: <https://cryptollc.org>

2. Digital Bridge Mining

Digital Bridge Mining specializes in turn-key mining infrastructure, including power procurement, container-based hosting, and custom rig optimization. They offer facility hosting in low-cost energy zones across the U.S.

Website: <https://www.digitalbridgeminig.io/>

Both firms operate independently and are engaged by Apex Centinel through third-party agreements to facilitate infrastructure buildout and equipment support for its long-term mining strategy.
